Coventry Crown Court: Conspiracy to Murder  
Murder: Manslaughter

Alan represented 18-year-old RWR at Coventry Crown Court. Following a 5-week trial, Alan's client was the only defendant to be found Not Guilty of Murder or Manslaughter.

In April 2023, the four defendants, together with others, terrorised a family in Birmingham following a long running dispute that led to tit for tat stabbings and criminal damage. The defendants went to the intended victim's home on three consecutive nights, armed with machetes, Rambo knives and a gun. They smashed every window at the front and the back of the house on each occasion and on the second occasion, they set fire to cars belonging to the family.

On the day of the murder, the four defendants were driving a stolen car in Birmingham. They were armed with machetes and were wearing face coverings. Upon seeing the intended victim's car at a KFC drive through, they rammed the car. There followed a car chase during which the defendants repeatedly rammed the victim's car until they ran it off the road. The intended victim ran from the car, only to be pursued on foot by the defendants. They were armed with machetes and were shouting 'kill him'. The intended victim got away. However, his 50-year-old father, who had been with him in the car was also chased by some of the gang and he was stabbed in the chest and killed.

The police investigation involved viewing hundreds of hours of CCTV footage and a careful analysis of telephone and cell site evidence.

Old Bailey: Murder Violent Disorder

Alan defended JA who was accused with 3 others of murder and violent disorder.

Following a 4 week trial at the Old Bailey, JA was found Not Guilty of all charges. The other defendants were all convicted of murder.

On 3<sup>rd</sup> June 2022, JA was stabbed in the leg. It was believed by at least one defendant that Adnan Saleh was involved in the stabbing. JA was accused of setting up Saleh in revenge by luring him to his death. It was alleged that, together with his co-defendants, he arranged for Saleh to meet them, whereupon he was attacked by a group of others, two of whom were armed with knives.

The planning was alleged to have taken place via telephone and the Crown relied on telephone data. The killing was recorded on good quality CCTV and the defendant's movements before and after the killing were all important to show association before, and disassociation following, the killing.

All the defendants and the deceased were associated together and with the Lisson Green Men Gang. Each had convictions for violence, drugs and weapons offences, and the Crown sought to rely upon evidence from a 'Gang's' officer. The Crown made an application to adduce evidence of bad character and evidence of gang association.

Alan defended in a multi handed 'gang' murder allegation at the Old Bailey. The trial lasted for 3 months. The defendants were accused of taking part in a 'ride out' to avenge an earlier stabbing of one of their friends.

His phone was taken and thrown away. Alan's client then drove the car to three separate addresses. CCTV at the second address showed 8 individuals, armed with machete's, zombie knives and other weapons outside an address. They did not gain entry, ran back to the vehicles and drove to a third address. CCTV showed all 8 entering the premises. The victim was a 16 year old. He was stabbed to death in front of his mother. The group fled. They were identified by police using cctv, cell site, telephone evidence and social media. The main issue in the case for Alan's client was intention. He did not give evidence.

Alan's client was found Not Guilty of Murder, Manslaughter and two counts alleging a conspiracy to cause GBH with intent. He was convicted of a single count of robbery.
