## Expertise

### Crime

---

William acts for the defence in high profile and serious organised crime and is well known for his attention to detail, and his ability to assimilate complicated case material rapidly. He defends in complex fraud, terrorist related cases and matters prosecuted by the NCA, UKBA, SFO and the SPA. He has considerable experience in pursuing disclosure disputes on behalf of his clients and in presenting any abuse of process arguments that may follow. He is adept at cross-examining experts in DNA analysis and telephone cell site analysis, both critical areas which often lead to the fundamental undermining of a prosecution case.

William also has extensive experiences in matters relating to alleged sexual misconduct, including historic rape, alleged grooming and serious sexual offending.

William also has notable experience in Military law and courts martials, he is the only counsel to have been instructed in all four of the major “Iraqi abuse trials” that emanated from Operation Telic and the British military occupation of Iraq. He went on to represent a core participant in the Baha Mousa Public Inquiry.

#### **Sexual Offences**

William has been instructed in a wide range of sexual offences both in the civilian courts and the military courts. He has represented clients allegedly involved in both single incident and multi incident allegations of rape, sexual assault, and historical sexual abuse. He has frequently cross-examined vulnerable and young complainants. He regularly represents clients charged with possession and distribution of indecent images.

#### **Private Prosecution**

William has advised on the bringing of private prosecutions and he is an active member of the PPA. (Private prosecutors association). Private prosecutions allow individuals, businesses or organisations who have been the victims of crime to pursue justice in the criminal courts by bringing a criminal case themselves, without the involvement of law enforcement agencies. They offer an alternative remedy in cases where an investigation or prosecution has not been pursued by the state. William is able to advise on the limitations that are relevant to the existing legal framework and to provide support for those wishing to pursue such action.
